

INTERNATIONAL TRANSIT INSURANCE

MexiCo Forwarding sells and recommends TG International (TGI) Insurance Brokerage for coverage against transit and depository loss and damage while your household goods and personal effects are in the care and custody of the professional movers, van operators and warehousemen we hire to prepare, handle and transport your shipment to or from Mexico. You may opt to purchase coverage from ANY insurer you wish and if you obtain coverage elsewhere we will require proof of insurance and we may (or may not) require the underwriter to add us as a named insured.

Be sure you purchase sufficient insurance to cover the total value of your goods. If your shipment is worth \$100K and you only take out \$50K coverage, you may be compensated for only half of the cost of repair or half of the value lost. Be sure to read the terms and limitations of any policy you purchase. If you have any questions, ask them BEFORE you purchase coverage.

Coverage Options

Replacement Value – You must cover your goods for the amount of money it would cost to replace everything in the shipment. You do NOT have to complete a value inventory, but a declaration of any items valued above \$1000 (grand pianos, leather sofas, etc.) OR above \$100 per pound (porcelain figurines, paintings, expensive cameras, etc) must be provided with the insurance application. If you have loss or damage, the liability of the insurer will be the LESSER of the cost of repair OR the replacement cost. If repairs result in a loss of value (mismatch of a set or loss of value to an antique) this reduction may be claimed in addition to repair costs.

Declared Value – You will complete a value inventory of all articles to be shipped. From this inventory you can calculate the amount of insurance you should order. If you have loss or damage, the liability of the insurer will be the LESSER of the cost or repair or the value declared.

Depreciated Value – You must cover your shipment for the fair market value of its contents. You do NOT have to complete a value inventory. Again, if you have any high value articles, those must be declared in writing with the insurance application. If you have loss or damage, the liability of the insurer will be the LESSER of the cost of repair or the depreciated value of the item. If an article is fully depreciated according to standard schedules, the value will be determined by the sum which might be expected from the sale of the item at an auction or garage sale.

The insurance will NOT cover the contents of PBO (Packed by Owner) boxes. It will NOT cover loss or damage occasioned while the shipment is in the care, custody and control of US or Mexican Customs Officials. Insurance MUST be in place PRIOR TO PACKING. You MUST inspect your shipment upon delivery to assure all items were received back in good condition. If loss or damage is noted on delivery, make a written list of the loss or damages and have the delivery crew chief acknowledge the list with his signature. Call the insurer or forwarder (MexiCo Forwarding) immediately.

Claims MUST be received by the insurer within a specified grace period (see your policy)
