

***IMPORTANT NOTICE!***

***INSURING PIANOS***

June 13, 2006

Our insurance company has changed its policy regarding the coverage of pianos.

If you have a customer who is shipping a piano, with or without other household goods, it is required that our company is contacted at least **7 days prior to packing** of the shipment with a current appraisal showing the piano's current **condition and actual cash value** (not replacement cost); in addition, we will need the details on how the piano is being packed and transported.

Please complete the attached form; e-mail or fax it to our office at [webmaster@tginternational.com](mailto:webmaster@tginternational.com) or (949) 661-9758 along with a copy of the appraisal.

Once we have received the necessary information, we will contact the insurance company to confirm whether coverage can be offered under our regular household goods program or whether it must be insured under our cargo program.

**THANK YOU FOR YOUR ATTENTION!**
